Defenders Slowly Lose **Ground against Strong Motorized Nazi Forces**

Hitler's Troops Advancing against Battered Polish Forces on All Principal Sectors, Berlin Statement Declares; French Claim Advance of about a Mile on Western Front

By The Associated Press

Fresh victories for the German army in Poland were reported by Berlin last night (Wednesday) while a battered Polish army retreated steadily toward the east.

Giving no details, the Germans announced that Warsaw was encircled and that their troops were pushing toward Lwow (Lemberg), in southeastern

Modlin, northern keystone to defense of Warsaw, was surrounded, it was said.

On the Western front, the French reported sev-France and that the Poilus had moved about a mile farther into Nazi territory. At the same time a dispatch from Lwow, in the Polish Ukraine, said the Polish army was falling back after temporarily holding German forces along the San and Vistula rivers.

GERMAN UNITS ADVANCE

German motorized units were reported to have reached the main highway connecting Lwow with Lublin, 100 miles northward.

While announcing victories in Poland, the German government published in Berlin a contraband law which was said by authoritative sources to be desiged as a "defense" against the English "blockade." A long list of forbidden war materials, money, mies, navies and air forces of the Many Tell Thrilling Tales transfer from Pearl Harbor, Hawaii. But Seem Likely To Fail machines and transport equipment was published by

Calcium Changes In Our Bodies **Every Six Years**

No Authority for Placing Complete Transition Period

BY LOGAN CLENDENING, M. D. "Every part of the body is completely changed every seven years."

That was one of the basic principles taught in the physiology of my high school days.

A modern psychologist, my colleague, Dr. Wiggam, tags this in replying to the question, -"Do psychologists get along happily with is a clever man and entitled to that shells and urchin spines that were their wives?" by saying that he many and Mrs. Wiggam have lived very Of course, chemically he is very not the same man you were when when he first voted. I married you."

More a Development

Shouldn't Talk Too Much

regard to war matters. This is because fear is executive. entertained that his freakish temperament may prompt him into putting his foot into it, and unnecessarily complicate our neutrality, on which the people are insisting because they do not want to be dragged into the war.

Would it not be just as well to leave off the tacit serving of notices on Germany as to-what this country might do under the Monroe Doctrine or under any other policy? Is it time for this sort of thing?

The president for some little time has been reticent in his public utterances in this regard. He has been evading many questions or else answering them enigmatically. That is to say, he has been cautiously diplomatic. And that is what the situation demands that he should be

But now he seems to be itching to make theoretical commitments for this nation by way of comment on what the future might bring forth. Perhaps it would be just as well to let that take care of itself with regard to the war situation.

A Needed Step

THE CIVIC IMPROVEMENT COMMITTEE of the chamber of commerce has taken a hand in the realty tax problem, and that is a good

For a long time protests have been made are others busy building up. over the gross inequalities of realty tax assessments and the consequent unjust realty tax burden in Maryland. It is long past high time that something should be done about them.

Repeatedly we read of realty sales made here and there at cash considerations that are but a fraction of the assessments placed against the property. With such a situation obtaining, it is no wonder that dwellings and other real propcrty are allowed to fall in a disreputable state for lack of needed repairs and upkeep; that the realty market is in the doghouse and that the housing problem continues to be one of our greatest handleaps.

The chamber committee plans to give the subject thorough study. This is good. If more light on it can be given, together with practical recommendations, something may be achieved in the direction of a long-needed reform.

Sound Reminder

WE ARE REMINDED that whether we stay

in November as usual.

The reminder should prompt citizens not to lose sight of their political welfare in their avid attention to war matters. It is this very thing that is prompting politicians and public officials to do a lot of things now and to get away with health. them that they would not be doing if attention of the people were not diverted from them. There is no question but what a lot of such things are being done behind the scenes in Washington right now under the screen of the "limited emergency."

Because of the critical international situation, the people of this country will want as strong and as dependable and as representative a government as it is possible to have. But they political duties. They should beware of this pit-fall as they would beware propaganda. similarity between a great storm and a decent he's blazing all over with diamonds. Who, won't get it if they let their interest lag in their fall as they would beware propaganda.

Needed Airport Information

AFTER LONG DELAY, during which it is to be taken for granted that they have given the subject close study, the mayor and city council have decided to step along with the Wiley Ford airport movement

As noted in the news columns, the city dads have expressed their purpose of feeling their way along, which is the right thing to do in any project calling for expenditure of public moneys, but they have approved completion of the survey undertaken some time ago and abruptly halted before it was finished.

This is a practical way of going about the thing. As Harold W. Smith, commerce chamber secretary, has stated, the results of the survey will show definitely whether construction of the side. airport would be feasible. By having definite can be undertaken.

Slavery in Europe

THE LOSS of personal freedom in Germany and adjacent countries resulting from the war should serve as a grim reminder to people in this the snarling jeolousy have been washed away. . country who may be letting their war sympathies override their common sense.

The people over there have been reduced to more, affectionate and glad. something actually worse than slavery. For instance, a dispatch from Budapest notes the conviction of five men and their sentence to concentration camps for spreading "alarming reports," and a governmental announcement in newspapers that in the future it would proceed ture and extent of the maliciousness, of course, start, it can be enriching. are determined by the militarists and the government bureaucrats.

which anyone in Germany who listens to a radio | that much the sweeter,

broadcast from a foreign station is subject to The Human Side to the death penalty

These frantic efforts to prevent the spread of the News are of the force of public sentiment and to what foolish ends they are going in efforts to stop it But their efforts are so extreme that it is more than likely that they will have an effect opposite from what is intended. This is because they cannot eradicate one of the oldest and strongesi instincts of the human race-curiosity. Strongarm efforts to prevent the transmission of information about the other side by radio and by word of mouth surely arouses the suspicion that the government does not want its people to know the truth. But some way or other they will get the information for which their natural curiosity hungers. We know that even prison men can always find ways of obtaining information from the outside and spreading it from cell give you the lay and you put it

Nevertheless, the clamping down of such rigid restrictions is a lesson for all freemen to trick. The Chinamen do it better keep in mind. War strips the individual of and I been thinking up some things practically all freedom of action, and it will do about Chinamen for this piece-but it to an extent perhaps never dreamed of here first I want the public to underif this nation should be dragged into it. More stand once for all that Al Capone than has been realized has already been attend- shouldn't have had that mark on THERE IS a feeling that President Roosevelt ed to in some of our preparedness measures and him. Palaver That Is Dangerous

By HUGH S. JOHNSON

Washington, Sept. 13-The prestdent's admirable policy to keep America out of war and also to keep the war out

of the Americas has received its first rude shock. War has already come to the Americas. Canada is at war with Germany This is not by reason of any-

thing that Germany has done to Canada which as a sovereign state, has no legal "casus belli" cause for war. On any known

earlier standard she is now an "aggressor nation". It is easy to say that her action is none of our business. So might it be if it were not for the Monroe Doctrine. Under that old American policy as Westbrook Pegler has pointed out, we are a guarantor of Canadian territorial integrity. Canada can - but won't - say: "That is no alliance. You took

that position yourself. It imposes no obligation upon us. It is unilateral-one-sided. Stew in your own juice. "Mebbeso. But our destiny is more closely concerned with Canada than with Europeand so is hers with ours. Our Pelicy

"No entangling alliances" is our policy. Can we be euchred into a position that amounts to an alliance with England in America because of our policy toward European conquest here?

I have lived through dangerous days when the Germans could have taken the Channel ports in France. Had they done so, they could have starved out British, French and American resistance on land almost immediately. To our fears for the mighty British Fleet, our General Staff was told that if worse came to worst, it would change its base to Canada. Wouldn't it do so again? Isn't the war now

The Canadian war declaration i for us a matter of first magnitude. Through the Monroe Doctrine it moves us miles closer to involvement. Considering all known facts, and Vermont were the only Repub- it is utterly inconceivable that it our government and without ob-

BARCLAY ON BRIDGE

By Shepard Barclay

"The Authority on Authorities"

AMONG THE most beautiful plays in the game are those which combine features of two types of tricky moves, such as a squeeze and a lead-throwing end-play. The running of your long suit will sometimes oblige one defender to discard in a way which offers you a chance to throw him into the lead and leave him no alternative but to pitch away from a tenace right into your own cards.

vulnerable.)

Here West bld 1-Spade, North 2-Hearts, East 3-Diamonds, West 3-Spades, North 4-Hearts, East 4-Spades and North doubled. The unorthodox lead of the heart 9 put the declarer on the spot, but he was equal to the emergency. On this trick the J forced the A, then a lead was made to the diamond A. West being prepared to finesse, but North split his honors. Followed then the spade 9, spade

Distributed by King Features Syndicate, Inc.

8, spade 10 and then the spade A, which dropped South's king and also compelled North to make a disastrous discard. He cut himself down to three hearts, three clubs and the diamond K, rather than keep one more diamond which would be topped by dummy's J.

Declarer proceeded with plan, leading the club Q to the K. This time North was able to return his diamond K, which West ruffed. Then, however, declarer led the club 5, which passed around to the 10. A diamond re-turn by South would have been " dummy's now good J. so he turned a club to the A. Now Nord was end-played, having only the heart Q-9-8, from which he had to lead into the K-10

PAGEANT OF PICTURE PLATTERS

FAMOUS LECTURER IN CHARGE

With all the glamour, fun and excitement that go with a cooking school, a woman knows that the wonderful new recipes she receives will mean more to her than any other feature of the school. And well may she feel this way, for Pageant of Foods Cooking

School recipes are among the most famous in the country. Collected by a large staff of expert cooks, each recipe must prove itself valuable by the most rigid standards before it is chosen. Is it practical? Does it call for ingredients found regularly on the supply shelf? Does it meet high requirements of flavor? (Note: Men are included among the taste-testers.) Does it serve attractively? How much time and work are required for its preparation? Can it be cooked in a utensil found in the average kitchen? These and many other questions must be answered favorably before the recipe is even considered.

And then for the variety! Meat dishes, cakes, pies, cookies, salads, desserts. Pageant of Foods is the only cooking school which features meat cookery, so recipes are included illustrating the correct and easy methods for broiling, roasting, braising (some call it potroasting!), and simmering in water (meat should NEVER be actually boiled!). A woman who attends all sessions and applies all she learns cannot help becoming a good meat cook!

Each day's printed Pageant of Foods Recipe Booklet contains more than a score of recipes which have been tested by the above high standards. Directions are simple and clear. Many of the recipes will be prepared before your eyes by the famous expert in charge of the school. Plan to attend every session so you will receive the full set of recipes and get the benefit of every lesson!

Miss Emily Conklin of the National Live Stock and Meat Board.

This famous lecturer is equally well known for her engaging personality and for her practical knowledge of cookery. As a member of the staff of the National Live Stock and Meat Board, she is one of the most outstanding meat cookery experts in the country. Do not fail to hear her.

LIVER BILE-

the Morning Rarin' to Go

the Morning Rarin' to Go

The liver should pour out two pounds of iquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bleats up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks punk.

A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up." Harmless, gentle, yet amaring in making bile flow freely. Ask for Carter's Little Liver Pills by name. 25 cents. Stubbornly refuse anything else.

MURPHY'S *

MEN'S-LADIES'-CHILDREN'S LONG WEARING QUALITY

For 17,000 Hens

A Day's Work

Camp Bullis, Tex. Sept. 13 (A) is a hard-hearted housewife who won't sympathize with the quartermaster's corps and its problems of feeding 8,500 officers and enlisted men encamped at Camp Bullis for practice maneuvers.

Army regulations specify each man shall have slightly more than five and a half pounds of food

On this basis it takes 46,750 pounds of food to feed 8,500 men

Instead of figuring on a daily basis the army computes its needs over the 30-day camp period. Cooks figured 165,750 pounds of beef, or approximately 83 tons were needed for the month.

They estimated that for one beef stew 4,250 pounds of beef were required, plus 4,250 pounds of potatoes, plus 425 pounds of carrots, plus 255 cans of tomatoes. One

I hied myself to my hide-out atop the Knobleys early yesterday morning when, after reading your missive about Celanese Kelly, I happened to spy that picture on the back page of THE NEWS showing what might have been the Vistula River in Poland but actually was the South Branch.

Dear Paddock Pete:-

Then I read somewhere else in the paper that some of you NEWS boys were fishing Sunday in the South Branch and

"The crew of a German submarine hove in a riffle to catch themselves a fresh supply, but a game warden came prowling along and the submarine hauled m its Nazi flag and disappeared in the general direction of Green-

I know some funny things happen to some of the boys that go fishing on the South Branch, and I know the safest place for me with all that going on, and with both you and Celanese Kelly back in town, was to get up here to my hide-out atop

flatlands beyond the race track Hagerstown, now Motor Vehicles where the lights glow as the Celanese cat-eye shift works. During the races at Fairgo the plant was a 'blackout" . . . as far as I was concernce, so were the races . . rather, I'm still in the red

nese "stoppage" stopped in time for two days' play of the Dayis Cup matches. Fred was interned at the they blew the dope wide open and

World War, I think his very presence must have undermined the Americans on the other side of the Philadelphia, Sept. 13 (A)—Socked net at Philadelphia.

> The way I feel about that Davis Cup now, since history is repeating itself, is that we should let the Australians have it. The last time they won it there was a World War, and here we are

> The fact is, if I could pastpost a pretty good parlay, I'd bet enough to buy a fresh Davis Cup. The current one has been bobbing about in the brine on too many ocean crossings. That's a suggestion for the Cumberland Country Club to consider.

If there's not enough left over from the sale of tickets after paying the \$500.00 guarantee for the visiting racqueteers (don't get me wrong now) to buy a new Davis Cup, it might be a good idea to throw the whole affair open and wind-up the evening with a "bingo" party

That would sure make ends meet Mr. Damski, "my Finn comes to me with tears in his eyes and says, 'why do they stop it?' He likes to bleed, especially between meals."

By a powerful coincidence, the two great blood donors, Barlund and Galento, have both had to do with Lou Nova, Nova has a knack for the stop of th

Having thus settled the war, has anyone heard about the price of sugar or has anything been done to curb the increase in its price? I'm sort'a anxious to know since I want to buy me a pound in lump form to

out of the sugar bowls at the Fort

Other Sports on Page 11 NOW! In the GLASS HUMI-JAR that protects Cigars Against 50% More SMOKING PLEASURE GOOD YEAR Fresk! GOODYEAR TRY SAN FELICE Cigars and see how much better a fresh Cigar Tastes!

I asked him if this was War-

saw. He piped, "Warsaw's in

Polin' To which I piped. "But you're Polin'! Ain't they're no sugar in the poles! Then he piped profusely.

"They're bowls, not poles. In West Virginia, where I come from, they have no poles; they use them for mine props." So with the piping and the

poles and the props placed end to end we had a pretty fair understanding which we agreed to make the axis of a sweet settle-

with workable spaghetti to attract the Balkan countries and those outlying Pennsylvania towns which just voted wet and dry Tuesday I want to use the axis to make a ball of twine with unused fishing

There should be plenty around since the rout of Romney with the appearance in South Branch of that Nazi submarine Sunday. With this ball of twine of fishing line we should be able to catch anything.

stars out of a certain jockey for

just what was Mr. Elgin's movement up in Cumberland with his "star" idea? Did he want to see what had dimmed the star to which he hitched his wagon, and got appointed vehicles com missioner? That's probably the They're still singing down

east, ever since the governor visited Allegany county, "I Wonder What Became Of Ally! That Cold Gal Of Mine! My, hasn't the weather

changed. Wonder how our County cohort found Annapolis yesterday.

SADDLE STRAP SAM.

P. S .-- If I was in harness instead of hiding out in the Knobleys I'd take the suggestion of so many people that I overheard while in town. It seems everyone is of the opinion that the "bulletin board" on the building is not being used to its best advantage. For instance there is the same thing there

Toronto, Ontario, Sept. 13 (P) Bowie and Campbell

the New York Yankees again will To Play Finals Today

will meet this afternoon at 3 o'clock on the Country Club courts for the championship in the women's singles of the Allegany County tournament which has not been completed because the final players have been out of the city.

In a semi-final match recently Mrs. Bowie defeated Mrs. Peyton Brown 8-6, 4-6, 6-4. Miss Campbell advanced to the finals by winning from Mrs. Jeannette Eyler Leasure

PLUS A BIG

body Welcome How this Course Will Help You

The Dale Carnegie

Course in Public Speaking

Will enable you to talk with confidence before any audience.

Will overcome an inferiority complex.

Will develop leadership and fit you for positions of responsibility.

Will train your voice and improve your vocabulary and diction.

Will arouse interest in new channels.

Will make you a more efficient individual thereby extending your sphere of influence and service. This in turn will mean financial worth and social prestige to you.

This course has meant new horizons to thousands of men. Self

improvement is the soundest investment any man can make.

We must become better trained and more efficient or be replaced by the man who is superior. Be prepared for any opportunity that may come your way and you will not have to suffer regret and bitter disappointments.

Advice to the Lovelorn

BEATRICE FAIRFAX, Famous Authority on Problems of and Marriage.

Her Boy Friend Backward Dear Miss Fairfax

I've been going with a certain young man for a few months now, but I can't persuade him to come into the house. When he has a date with me, he insists that I meet him in front of the house, and then we go for a walk, to the movie, or a band concert.

I had one quarrel with him on account of this, made up again and he apolo gized. But when I ask him to come and ring the doorbell and get me, he still insists that meet him in front of the house My folks have nothing against him; in fact my mother objects seriously to my meeting him outside. What would you advise, under the circumstances?

I suggest that you explain t your boy friend that your mothe objects to you meeting him on the outside, and that he really mus come to theedoor and call for you is why he objects to doing this, inasmuch as your people are willing to be a little bashful, and if he does come in. I suggest you do dot bring the entire family in for introduc tion at the same time.

Wants To Keep Friendship

When I first met this girl ! grew to care for her at once and made things as pleasant for her as I could. We had a few quarrels but made up again each time. She may still be interested in me but it seems. as if it is merely an old friendship Whenever I call. I don't know whether she is anxious to hear from me or not. I suppose this is because we've quarreled

And now there's a rival on the scene. He has a car and plent; of money, which I lack I couldn't bear to break with her, for I still care about her in my own "dumb" way.

From your letter (which was fa) too long to print) it seems to me that you become reconciled with this girl only to quarrel again. Why don't you cut out these skirmishes deadly rival with the car and mon-

Officials Meet Today To Decide On McCoole Job

Important Session Will Decide Fate Of Grade Crossing

The plea for grade crossing elim ination at McCoole which was made by the Good Roads Committee of the Cumberland Chamber of Commerce earlier in the week has

An important meeting to decide the question will be held at the crossing today at 10 a. m., Harold W. Smith, Chamber secretary, was advised last night.

Attending the meeting will be representatives of the Federal Bureau of Public Roads, the Maryland and West Virginia roads commissions, the Cumberland Chamber of Commerce, railroad officials, and other interested parties

Want Double Project

What the Good Roads Committee asked was that a crossing elimination project be included in the new bridge project, bids for which have already been advertised for. The new bridge will span the

Potomac between Keyser and Mc-Coole, carrying U. S. Highway 220. The Good Roads Committee decided that even a new bridge would be only half a job if the dangerous crossing over the B&O and Western Maryland tracks was not

Whether the grade elimination project will be included in the bridge project at the last minute now appears to depend on the approval of the Federal Bureau of Public Roads, which allots funds for crossing elimination, according

U. S. Would Pay All Smith said that H. R. Pratt,

chief engineer of the Western Maryland, who will be at the meeting today, has drawn up plans to show that, by use of available federal funds, the grade can be eliminated without any additional cost to Maryland or West Virginia.

Plans which were made before the crossing question was brought up call for West Virginia to build the bridge and for Maryland to pay half the cost. Bids have been advertised, but no contracts for the bridge have been let yet.

Chairman Ezra B. Whitman, of the Maryland Roads Commission, told The Associated Press in Baltimore that if the crossing project is added, then Maryland will probably be given charge of the combined project, since the crossing work would all be in Maryland.

Whitman said the bridge might have to have in inclined floor to

'It' Contest **Lead Changes**

Jeanne Marie Kennell Takes First Place

Jeanne Marie Kennell has come up from fifth place to first place in the Western Maryland Personality Girl contest, according to the latest bulletin on standings, which was issued last night.

Norma Grove, who was leading Saturday, has dropped to third place. Janet Kessell stays in second Rita Boyland dropped from third to fourth, and Kathleen Wright from fourth to fifth.

The contest is being staged as part of the Shrine Circus, which will be held in State armory Sept. 25 to 30. Votes are cast by Shriners. The contest ends Sept. 29. The field has now been narrowed to

Others in the order of their standing are Myra Jane Valentine, sixth; Dolores Roeder, Godetta Hast, Marjorie Sluss, Peggy Bischoof, Rita Logsdon, Betty Bennett, Aliee Lookenott, Ruth Elizabeth Twigg, and Dorothy Albright.
